

Lead rolling machine

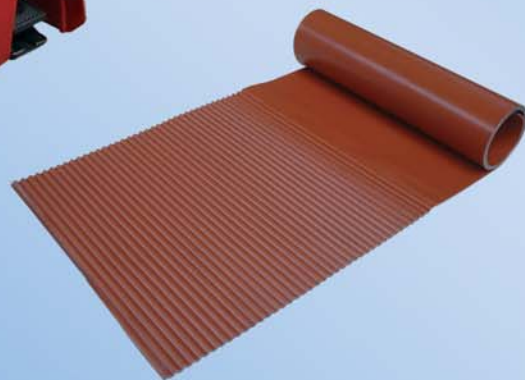

manual / motorised drive

BA 15/4

BAE 15/4
with subframe and supporting table*

*The light and transportable machine
for profiling lead sheets.*

Lead rolling machine

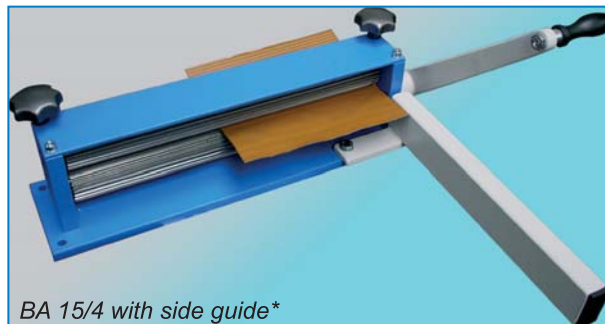

Lead rolling machine - BA15/BAE 15

The lead rolling machine

The solution for the rapid profiling of lead, aluminium and copper plates for the manufacture of chimney and dormer window connections.

Design features

- modern, stable construction, easy to transport
- fast adjustment of the sheet thickness on both sides with star grip
- machine body and subframe can be easily unscrewed for transport
- individual assembly options
- manual or motorised drive
- easy to operate and requires no maintenance

BA 15/4 with side guide*

Dormer window connection with profiled lead sheet

Equipment	BA	BAE
