

DECOTECH

SOFT ROLLS FOR
ROLL COATERS

Roll coating machines apply more **ecologically** and **efficiently** than spraying automats.

MITEX DecoTech allows **economical** coating of **complex 3D surfaces**.

REVOLUTIONARY DECOTECH SOFT ROLL ALLOWS COATING OF 3D STRUCTURES

- ⚡ Increase in economic efficiency due to avoided overspray
- ⚡ Excellent ink spread for defined application amounts
- ⚡ Outstanding coating behavior, large deformation possible
- ⚡ Extremely soft cover, precise between 5 - 25 Shore A
- ⚡ More wear resistant and homogeneous than sponge rubber

Increase your product quality and your process reliability.

We would be pleased to present you possible applications of DecoTech rolls.
